

ILFORD OMNIJET Bright White Film

ON3BWF7 (220gsm)

ILFORD OMNIJET Glossy White Film is a polyester-based gloss white film with an instant-dry ink receiving layer. It is designed for use with both piezo and thermal wide format inkjet printers, and is compatible with both dye and pigment ink types. It may be used un-laminated with both dye and pigment inks to produce images for short-term indoor display. When laminated with a suitable protective film, it is ideal for long-term pop-up display applications for exhibitions, trade fairs and point-of-sale, the polyester base making it tear-resistant and dimensionally stable.

FEATURES

Excellent imaging performance and permanence
Indoor display graphics
Short term outdoor, if laminated and using pigment inks
Instant dry

PRINTER & INK COMPATIBILITY

This Paper is designed for use with most wide format inkjet printer systems using either aqueous dye or pigment inks from major manufacturers.

IMPORTANT Printer and driver settings may need careful setup to ensure optimum performance. Ink loads need to be set appropriately for the ink/printer combination in use.

AVAILABILITY

36" (91,4cm)

PHYSICAL PROPERTIES

Weight	220 gsm
Opacity	98 %
Caliper	180 micron (7 mil)
Tint (CIE L* a* b*)	96,0 -0,2 -3,0

ENVIRONMENTAL CONDITIONS

Operating	15–25°C, 35–65% r.h. non-condensing
Storage	15–25°C, 35–65% r.h. non-condensing

ADDITIONAL INFORMATION

Finished prints should be interleaved and stored carefully to prevent scratching. Fine art ink and print surfaces are more delicate than conventional RC inkjet prints and should be handled with care.
