

Raster Silk

GPRP

ILFORD GALERIE Raster Silk complements the existing GALERIE range by offering photographers a resin coated paper with a defined structure giving the final image a creative edge. The 290gsm product has a bright white base tint that gives great contrast and tonal range, and its advanced layer coating ensures that a broad colour gamut can be achieved.

FEATURES

- Look and feel of a classical photo paper
- Raster surface
- Bright white tint
- Heavy weight RC photo paper

PRINTER & INK COMPATIBILITY

Designed for use with both desktop and wide format inkjet printer systems using either aqueous dye or pigment inks from major manufacturers.

| Caliper | 265 Micron (10,5 mil) | |
| Tint | 95,5 1,2 -8 | |
| OBA Content | Yes | |
| Acid Free | No | |

HANDLING TIPS

Finished prints should be interleaved and stored carefully to prevent scratching. FineArt paper prints are typically more delicate than conventional resin coated (RC) papers such as Pearl, Glossy, Lustre surfaces and should be handled with additional care. Before printing please check that there are no loose paper fibres or debris on the media surface as this may lead to print errors. As with any FineArt media using raw paper it is possible that some debris may exist.

ILFORD have taken great care to ensure that in general our papers are free from loose paper fibres, but please check before you make the final print. Cotton gloves are recommended to avoid contaminants getting onto the surface.

STORAGE

It is recommended that you store your paper in the original product packaging/boxes. Products must be stored in a cool, dry environment away from direct sunlight. Optimal storage and Operating conditions are 15–25°C, 35–65% relative humidity, non-condensing.

AVAILABILITY

Available in sheets and rolls. For more details please see the product page on www.ilford.com.
