

## Smooth Cotton Sonora

### GSCS

The ILFORD GALERIE Smooth Cotton Sonora is a cotton made, matte fineart paper with a smooth surface and natural white tint. It has a very smooth, velvet touch and is ideal for artistic prints for exhibitions or interior decoration with long durability. Smooth Cotton Sonora produces vivid colours as well as black and white prints impressively.

Opacity	>98%	
Caliper	490 Micron (19 mil)	
Tint	97,6   0,4   3,8	
OBA Content	No	
Acid Free	Yes	

#### HANDLING TIPS

Finished prints should be interleaved and stored carefully to prevent scratching. FineArt paper prints are typically more delicate than conventional resin coated (RC) papers such as Pearl, Glossy, Lustre surfaces and should be handled with additional care. Before printing please check that there are no loose paper fibres or debris on the media surface as this may lead to print errors. As with any FineArt media using raw paper it is possible that some debris may exist.

ILFORD have taken great care to ensure that in general our papers are free from loose paper fibres, but please check before you make the final print. Cotton gloves are recommended to avoid contaminants getting onto the surface.

#### STORAGE

It is recommended that you store your paper in the original product packaging/boxes. Products must be stored in a cool, dry environment away from direct sunlight. Optimal storage and Operating conditions are 15–25°C, 35–65% relative humidity, non-condensing.

#### AVAILABILITY

Available in sheets and rolls. For more details please see the product page on [www.ilford.com](http://www.ilford.com).
