

ILFORD Imaging Europe GmbH releases GALERIE ICC Paper Profiles for the EPSON SureColor P20500

May 16th, 2025 – ILFORD Imaging Europe GmbH, a global leader in professional imaging and fine art printing media, is pleased to announce the availability of ICC paper profiles for its acclaimed ILFORD GALERIE range, optimized for the new EPSON SureColor P20500 printer.

“With the release of these new profiles, ILFORD GALERIE papers are ready to fully complement the next-generation print capabilities of the Epson SureColor P20500,” said Marc Payet, General Manager of International Sales of ILFORD Imaging Europe GmbH. “We are proud to support the creative community with reliable tools that elevate print output to the highest professional standards.”

The new ICC profiles have been developed and tested by ILFORD’s expert color management team to ensure optimal compatibility with a wide selection of GALERIE papers.

ILFORD Galerie offers the widest range of 64" media available for the Epson SureColor P20500 printer—providing photographers and printmakers with unmatched versatility and quality. This extensive lineup includes industry-favorite products such as GALERIE Smooth Pearl, Gold Fibre Gloss, Cotton Artist Textured, Smooth Cotton Rag, and Textured Cotton Rag, among others. Each paper is supported by ICC profiles tailored to maximize its unique characteristics—ensuring exceptional color fidelity, tonal depth, and surface nuance in every print

Developed specifically for the EPSON SureColor P20500’s 12-color pigment ink system, the new ICC profiles deliver improved tonal accuracy, smoother gradations in shadow areas, and deeper blacks. These enhancements support consistent, high-quality results across both color and black-and-white prints, meeting the exacting standards of professional photographers and fine art printmakers.
